

# Pink Tower

## Learning Outcomes

- Control and coordinate body movements
- Develop visual discrimination of dimensions
- Develop the concepts of large and small
- Develop muscular perception of dimensions
- Develop ability to visually grade

## Indirect Outcomes

- Become aware of the quality of dimensions leading to intelligent observation and ordering of the environment
- Prepare for mathematics

## Materials

- A graded set of ten wooden cubes, pink in colour, differing from one another in all here dimensions and increasing regularly in size - the smallest being one cubic centimetre and the largest ten centimetres.

## Variations and Extensions

- Bring the cubes to the rug and place in a random order.
- Build horizontally.
- Touch the corner.
- Build, equalising heights
